G30 BREWING SYSTEM

The Grainfather **G30** is a multi-award winning, 30L (8 US Gal) brewing system which is designed to make up to 23L (6 US Gal) of beer from one brew. With app integration, innovative features, and an intuitive design, it's perfect for both beginner and experienced homebrewers.

FEATURES

- Sleek 304 grade stainless steel body
- Connect your mobile device to the Bluetooth controller via the Grainfather App and manage your brew remotely
- A robust magnetic drive pump for maximum brewing efficiencies
- An extendable grain basket that is designed to hold different weights of grain
- Efficient and sanitary brew transfer with the counterflow wort chiller
- Clips to easily attach the alembic dome accessory, allowing you to convert your **G30** into a microdistillery
- Available in both 220V and 110V in the US
- Backed by a 3-year warranty of grain

SPECIFICATIONS

SIZE:	733 x 386mm (29 x 15")
WEIGHT:	17kg (37lb)
MAX PREBOIL VOLUME:	30L (8 US Gal)
BATCH VOLUME:	Max: 25L (7 US Gal) Min: 10L (3 US Gal)*
GRAIN BILL:	Max: 9kg (20lb) Min: 5kg (11lb)
POWER:	NZ, AU, EU, UK, US: 2000W, 230V Also in the US: 1600W, 120V
CONNECTIVITY:	Bluetooth control

*10L (3 US Gal) batch volumes are only achievable with the micro pipework (sold separately)

WHAT'S INCLUDED

Grainfather **G30**
Bluetooth controller
Counterflow wort chiller
Grain basket
Overflow pipework
Bottom & top grain plates
Lifting bar
Grain stopper
Glass lid
Recirculation pipe
Filter
Hose fittings
Built-in pump

WORKS WITH Grainfather **GF30** & **GC4**

G40 BREWING SYSTEM

The Grainfather G40 brewing system has a bigger capacity and better connectivity. Produce up to 38L (10 US Gal) of beer from one brew and connect your mobile device to the smart controller with built-in wireless control via the Grainfather App, for step-by-step brewing and access to bazillions of recipes.

FEATURES

- Sleek 304 grade stainless steel body
- Heats wort evenly with conical shaped surface mounted heating elements
- Connect your mobile device to the smart wireless controller via the Grainfather App and manage your brew remotely
- Conical base for maximum wort transfer
- Efficient and sanitary brew transfer with the counterflow wort chiller
- PID (proportional integral derivative) uses a specially developed algorithm for managing accurate and consistent mash temperatures
- Quick and easy cleaning with CIP (clean in place) capability
- Integrated sight glass for easy volume reading
- Rolled edge grain plate and perforated basket for easy mashing
- Large bottom mounted dual-stage hop filter reduces pump and chiller blockages
- Compatible with 10 and 15 amp modes (15amp in NZ/AU requires additional power cable)
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	725 x 555mm (28 x 22")
WEIGHT:	29kg (64lb)
MAX PREBOIL:	46L (12 US Gal)
VOLUME:	
BATCH VOLUME:	Max: 40L (11 US Gal) Min: 10L (3 US Gal)
GRAIN BILL:	Max: 12kg (26lb) Min: 3kg (7lb)
POWER:	NZ, AU: 2300W (10A) - 3300W (15A), 230V. UK: 2900W (13A), 230V US, EU: 3300W (15A), 230V
CONNECTIVITY:	Wi-Fi control

WHAT'S INCLUDED

Grainfather G40
Wi-Fi controller
Counterflow wort chiller
Glass lid
Lifting bar
Grain basket
Recirculation hose
Grain plate
Hop filter
Fittings
Built-in pump

WORKS WITH Grainfather SF70, GF30, GC4 & GCA

G70 BREWING SYSTEM

The Grainfather **G70** is the ultimate 70L brewing system, allowing you to create 58L (15 US Gal) batches of beer at a time. The perfect match for experienced brewers, with built-in wireless connectivity, so you can connect to the Grainfather App for guided brewing and access to brewing tools, recipes and calculators.

FEATURES

- Sleek 304 grade stainless steel body
- Connect your mobile device to the smart wireless controller via the Grainfather App and manage your brew remotely
- Conical base for maximum wort transfer
- An extendable grain basket that is designed to hold different weights of grain
- Efficient and sanitary brew transfer with the counterflow wort chiller
- Quick and easy cleaning with CIP (clean in place) capability
- PID (proportional integral derivative) heating control for accurate temperature management during mashing
- Integrated sight glass for easy volume reading
- Rolled edge grain plates and large bottom mounted dual-stage hop filter
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	830 x 530mm (33 x 21")
WEIGHT:	37kg (81lb)
MAX PREBOIL VOLUME:	70L (18 US Gal)
BATCH VOLUME:	Max: 60L (16 US Gal) Min: 30L (8 US Gal)*
GRAIN BILL:	Max: 17kg (37lb) Min: 8kg (18lb)
POWER:	NZ, AU, EU, US: 3300W, 230V UK: 2900W, 230V
CONNECTIVITY:	Wi-Fi control

GF30 CONICAL FERMENTER

The Grainfather GF30 conical fermenter is designed to hold up to 28L (7 US Gal) of wort. With a digital temperature controller that has built-in wireless control, you can connect to the Grainfather App via your mobile device. Add fermentation tracking devices and manage your fermentation from anywhere.

FEATURES

- Sleek 304 grade stainless steel body
 - Connect your mobile device to the built-in, wireless controller via the Grainfather App and manage your fermentation from anywhere
 - Double-walled glycol jacket for constant and stable temperature control
 - Golden angle (60°) conical avoids yeast and sediment getting stuck to the sides of the fermenter
 - Dual valve tap allows you to easily dump yeast, transfer your brew and take samples
 - Integrated 30W heating element and cooling sleeve both sit within the cavity of the fermenter to control and maintain the temperature evenly
- NOTE: Cooling functionality only available when connected to the GC4 or the cooling pump kit (each sold separately)
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	910 x 360mm (36 x 14")
WEIGHT:	10kg (22lb)
CAPACITY:	30L (8 US Gal)
MAX FERMENTATION VOLUME:	28L (7 US Gal)
POWER:	12V, 30W
CONNECTIVITY:	Wi-Fi control
CONE ANGLE:	60°

WHAT'S INCLUDED

Grainfather GF30
Built-in Wi-Fi controller
Silicone bung & airlock
Dual valve tap
Power cables
Silicone transfer hose

WORKS WITH Grainfather GC4

CONSISTENCY IS MY MIDDLE NAME

GC4 GLYCOL CHILLER

The Grainfather **GC4** glycol chiller allows you to take your fermentation to another level. Power and control the temperature of up to four **GF30s**, each with different temperatures and their own fermenting schedules. By accurately controlling the temperature of your fermentation, you can produce consistent beers, every time.

FEATURES

- Sleek and compact design with LED control display
- Control and power up to four Grainfather **GF30s** at different temperatures and fermenting schedules
- Cold crash 23L (6 US Gal) of wort to temperatures as low as 4 - 6°C (39 - 43°F)
- Compatible with the Grainfather App when connected to a **GF30** or **GCA**, for managing your fermentation from anywhere
- Use with the **GCA** to connect a variety of different fermenters
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	656 x 390mm (26 x 15")
WEIGHT:	28kg (62lb)
CAPACITY:	6L (2 US Gal) glycol tank
POWER:	NZ, AU, EU, UK: 300W, 230V US: 300W, 120V
CONNECTIVITY:	None (Wi-Fi control available when used with the GF30 or GCA)

WHAT'S INCLUDED

- Grainfather **GC4**
- 3L (1 US Gal) propylene glycol
- 2 x cooling connection couplers
- 2 x 2m (6.5ft) insulated hoses
- Glycol funnel
- Silicone tube for priming pump

WORKS WITH Grainfather **GF30**, **SF70** & **GCA**

GCA GLYCOL CHILLER ADAPTER

The Grainfather GCA makes accurate temperature control more accessible for brewers. Whether you have a plastic or stainless steel fermenter, bucket or barrel, or even a conical, the GCA has everything that you need to connect your fermenter to the GC4. Take control of your fermentation and create even better beers.

FEATURES

- Compact design with colour display screen
- Use the GCA to connect a variety of different fermenters to the GC4 for accurate temperature control during fermentation
- Wireless capabilities, making it compatible with the Grainfather App so you can control your fermentation from anywhere
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	GCA: 101 x 63mm (4 x 2") Heating pad: 80 x 220mm (3 x 9") Cooling coil: 520 x 119mm (20 x 5")
CABLE LENGTH:	GCA: 2m (6.5ft) Heating pad: 2m (6.5ft) Temperature probe: 2m (6.5ft)
POWER:	GCA: 12V Heating pad: 30W
CONNECTIVITY:	Wi-Fi control

WHAT'S INCLUDED

Grainfather GCA
Heating pad
Cooling coil
Rubber bung
Temperature probe
2 x 2m (6.5ft) insulated hoses
2 x hose clamps
4 x rubber bung stoppers
NOTE: GC4 and fermenter are not included

BLUETOOTH WI-FI BRIDGE

Upgrade the connection on your G30 to Wi-Fi by connecting the GCAST to your G30 controller and never go out of range via Bluetooth again. Plus, view live Tilt data from anywhere and log it to your brew session with no additional hardware.

FEATURES

- Connect your G30 to a Wi-Fi connection and manage your brew remotely through the Grainfather App
- Avoid losing connection during remote control with better signal strength
- View live Tilt data from anywhere and log it to your brew session with no additional hardware required
- Sleek, multi textured design, that can be attached to any magnetic surface
- Easy to set up and use through the Grainfather App
- Backed by a 3-year warranty

SPECIFICATIONS

SIZE:	45 x 45mm (1.8 x 1.8")
WEIGHT:	30g (1.1oz)
POWER:	Input voltage: 5V Current: 0.8A
MAGNETIC:	Yes
WATERPROOF:	No
CONNECTIVITY:	Wi-Fi control

WHAT'S INCLUDED

GCAST
1m Micro USB cable
(wall charger not included)

SF70 CONICAL FERMENTER

The Grainfather **SF70** conical fermenter has been built to hold big batches of wort with a 70L capacity (18 US Gal). It's sleek, stainless steel finish makes cleaning simple and with an intuitive design, you can easily adjust the height, take samples, and dump yeast to avoid the build-up of yeast and sediment.

FEATURES

- Sleek 304 grade stainless steel body
- 113° angle conical avoids yeast and sediment getting stuck to the sides of the cone
- Adjustable leg height and castor wheels for easy manoeuvrability
- Insert temperature probes into the built-in thermowell for accurate temperature readings
- Easily dump yeast with a separate valve
- Transfer and take samples above the yeast and trub line with an accessible valve on the side of the unit
- Compatible with the **GCA** for accurate temperature control
- Backed by a 2-year warranty

SPECIFICATIONS

SIZE:	1300 x 410mm (51 x 16")
WEIGHT:	13kg (29lb)
CAPACITY:	70L (18 US Gal)
MAX FERMENTATION VOLUME:	65L (17 US Gal)
POWER:	None
